

Track B: Clinical Science

Victor Akelo, Kenya

Victor Akelo is a Senior Public Health Specialist – CHAMPS, CDC Western Kenya, and a Kenya site co-principal investigator of the HPTN 081 study. Dr Akelo has more than 10 years' experience in clinical and public health practice focusing on infectious diseases and clinical research. Dr Akelo is a US Centers for Disease Control and Prevention (CDC) Epidemic Intelligence Service (EIS) graduate (2018); here, he provided technical assistance to several public health programmes in Vietnam, the Republic of Georgia, Kenya, Ghana and the US. Prior to joining CDC Atlanta, Dr Akelo served as the HIV Research (HIVR) Branch Chief and Principal Research Officer in Kenya Medical Research Institute (KEMRI) and CDC collaborative projects in Kisumu, where he served as a research principal investigator of four NIH-sponsored studies: HPTN 052, HPTN 075, ACTG A5316 and ACTG A5297. Dr Akelo received his

MBChB in 2007 from the University of Nairobi, Kenya, and his MPH under the Foege Fellowship in 2014 from Emory University.
