

Track C: Prevention Science

Nittaya Phanuphak, Thailand

Nittaya Phanuphak is currently the Chief of Prevention at the Thai Red Cross AIDS Research Centre (TRCARC) in Bangkok, Thailand. She joined the TRCARC in 2002 to lead a country-wide prevention of mother-to-child transmission operational study. She has a deep interest in HIV prevention and key populations, especially around the use of Key Population-Led Health Service (KPLHS) approaches to enhance access to HIV testing, prevention and treatment among men who have sex with men and transgender women. She currently works actively with community and government partners to establish a national technical assistance platform to support the accreditation and legalization of key population lay providers to ensure KPLHS sustainability through domestic financing mechanism.
